## VSR 3015

### VISCOSITY AND REACTIVITY ADJUSTER FOR UNSATURATED POLYESTERS

#### DESCRIPTION

VSR-3015 was formulated for adjusting the viscosity and reactivity of DAP unsaturated polyester resins in the impregnation tanks.

#### CHARACTERISTICS

##### Physical properties

Color	Transparent- yellowish
Specific gravity at 25°C	1000±50 g./l.
Viscosity Ford Cup n. 4 at 25°C	10-13"
Flash Point	over 100°C

#### RECOMMENDED USES

For adjusting the viscosity and reactivity of Diallylphtalate-based unsaturated polyester resins in the dipping tank.

It can be used either in open dip tanks at atmospheric pressure, or in VPI equipments.

VSR 3015 should be added into the tank upon our Laboratory suggestions and further to the periodical tests effected by our Laboratory on the resin.

After its addition, VSR 3015 should be carefully mixed with the resin contained into the tank by means of a spatula or a pneumatic portable mixer.

When VSR 3015 is added into a VPI tank, the mixing can be effected by flowing some times the resin from the VPI tank to the storage tank and back.

#### STORAGE AND STABILITY

The shelf-life of VSR 3015 is of 24 months at room temperature (max. 30°C) in original closed containers.

Store in a cool place, far from heat sources.

Warning: All the information and application instructions concerning this product are based on technical specifications that we consider reliable, and are provided by way of example, according to our application experience. They do not establish any guarantee but only represent a starting point subject to alterations, according to the application and the kind of material to be treated. Before the product's use the user must determine the suitability for the intended use undertaking all risks and responsibility for whatever may happen in connection with the application. The producer and/or seller will not be considered responsible for any accident, loss or damage (immediate or consequent) originating from the use and/or the inability to use the concerned product. Albesiano Sisa Vernici srl reserves the right to change or modify at any time and without any notice the technical specifications of the product described in this data sheet.
