

Nomex® Crepe Paper T411

E3NCU0U.RP

Product description

Nomex® Crepe Paper T411, calandred

Product properties

Elongation of Nomex® Crepe Paper	100%	Thickness of base paper	0.18mm
----------------------------------	------	-------------------------	--------

Product information

The minimum order quantity is valid for one master roll. For cutting slim rolls it is $\geq [10[\text{kg}]]$.

For additional properties, please see data sheet of supplier.

Minimal order quantity: 1 rol

Alternative ordering unit: kg

Product parameter

	Description	Unit	Range of value	Constraint	Tolerances		Comment
					Min	Max	
TH	thickness	mm		Please refer to the table below for additional information.			
GRM	grammage	g/m ²		Please refer to the table below for additional information.			
DO	diameter outside	mm					
DI Core	diameter inside core	mm		Standard Core ID's: 25.4mm, 28.575mm, 31.75mm, 38.099mm, 50.8mm, 76.199mm, 101.6mm, and 152.399mm			
W	width	mm		Tolerance is for Trimmed Rolls			The tolerance for STW Rolls is $\pm 0.396\text{mm}$.
L	length	mm		Calculated characteristic			

Please contact us for values outside the specified ranges. The specified tolerances are valid for measurements taken at WEIDMANN or after conveyance and warehousing under conditions appropriate for the material. Customers are advised to add appropriate additional tolerances in case of extreme environmental conditions at the place of warehousing or processing of the material.
