

TECHNICAL DESCRIPTION

DESCRIPTION

Wire Stripper ISOLEX

POWER SUPPLY

230 V

TECHNICAL SPECIFICATIONS

Maximum length of stripping: 32 mm
 Power supply: 230V
 Power consumption: 18 Watt
 Length 170 mm
 Diameter: 50 mm
 Weight: 550 g

Type 02 Ø 0,2 to 1,5 mm

Type 03 Ø 0,3 to 4,0 mm

A practical solution for stripping enamelled wires. Powering the machine 230V. Suitable solution for manufacturers of transformers and DC electric motors. The head is equipped with 3 rotating blades. The speed can be adjusted according to the thickness of the wire.

APPLICATION

Plug in the mains plug. Feed the wire in between the blades. Press the red button and keep it depressed. The head rotates as long as the start button is depressed. After the blades have closed to a funnel-shape, slowly pull back the wire.

The black knob at the bottom of the unit allows infinitely variable adjustment of the head rotation speed. This should be set to a low speed for thin wires and high speed for thick wires.

SPARE PARTS

- Set head with blades for round wires
- 3 pcs. replacement blades
- Head protection cap
